

Enterprise-Grade Cybersecurity

- ✦ Hibernia Venture Labs, in partnership with Enterprise Ireland, is offering businesses access a comprehensive security assessment worth €3000 for **just €600** with the Cyber Security Review Grant.
- ✦ Delivered by HVL's world-class security team, the expert review, conducted in line with the National Cyber Security Centre (NCSC) Framework, includes vulnerability analysis, and a clear implementation roadmap to strengthen your security posture.
- ✦ Hibernia Venture Labs is seeking to incentivise uptake by EI clients by awarding a €600 credit towards future HVL consultancy services - effectively making the initial review **cost-neutral** for your business.

Benefits

Protects your business from the growing threat of cyber-attack

Prepares for stringent EU regulations with heavy non-compliance penalties

Contributes to robust vendor due diligence readiness

Strengthens cyber insurance applications and reduces premium costs

Why Act Now?

The NCSC handled over **5,200** cyber security reports in 2024

721 Irish businesses faced confirmed security incidents last year

New EU regulations legally **require** enhanced security measures

Limited grant funding available on first-come, first-served basis

Qualify for up to **€60,000** in additional implementation funding

Get Ahead On EU Cyber Security Regulations

Our comprehensive security review will position your business for compliance with current and incoming EU regulations with serious penalties.

GDPR

- ⚠ Up **4%** of annual global turnover fines
- ✅ Ensure robust data protection measures and incident response capabilities

NIS2

- ⚠ Up to **2%** of annual global turnover fines and criminal sanctions for C-Suite
- ✅ Align your security measures with NIS2 framework requirements

DORA

- ⚠ Up to **2%** annual global turnover and individual fines up to **€1m**
- ✅ Evaluate your digital operational resilience and third-party risk management

Cyber Resilience Act

- ⚠ Up to **2.5%** of annual global turnover fines
- ✅ Ensure product security compliance throughout the lifecycle

EU Cyber Security Act

- ⚠ Mandatory certification requirements with **“effective, proportionate and dissuasive penalties”**
- ✅ Map your systems against certification frameworks

Commercial Benefits

Investing in a strong cyber security stance will provide:

Enhanced vendor due diligence position

Streamlined fundraising processes

Improved partner and customer trust

Competitive advantage in tenders

ISO

Path to ISO 27001 alignment
